

Bob-O's Family Fun Center has always made SAFETY their number one concern. This concern guides us as we navigate the impact of COVID-19 in following the Texas Department of Health, CDC, and the World Health Organization for updates and guidance on where we live and work.

Because we are extremely committed to protecting the health of our customers and employees, we will both overemphasize our existing policies and training, as well as increase efforts to make our park even more SAFE.

Our staff will be required to wear face coverings as will all guests who visit our park.

1. We have staff dedicated to cleaning and sanitizing all high touch areas, i.e. doors, games, handrails, counter tops, tables, chairs, all outdoor attractions and equipment for all attractions.
2. We have installed numerous sanitizer stations throughout our park including but not limited to each attraction, all entry ways, and in the arcade.
3. We are limiting laser tag missions to 10 people to give us time to sanitize equipment in between use.
4. We will only use Bob-O's Fun Cards instead of bracelets to promote contactless fun. All recycled cards will be sanitized prior to reuse.
5. Gloves will be available upon request.
6. We do expect our guests to wear masks, to wash their hands frequently and use sanitizer.
7. We do expect our guests to practice social distancing.
8. We expect our guests to NOT visit Bob-O's if they are feeling sick or have any symptoms such as coughing, running nose, sore throat, shortness of breath, or a fever of more than 100 degrees Fahrenheit. We expect them to stay home if they have close contact with a person who is lab confirmed to have COVID-19.
9. We appreciate our guests' patience as we do our part in keeping them and our staff safe.

Our goal is to continue to offer a FUN and SAFE space for everyone to play.

Let's all make SAFETY our number one concern.

Play SAFE and be SAFE!
